It is Sent Back to Conference By the House.

AN AMENDMENT IN ISSUE

As to Compensating Naval Officers For Inventions.

Washington, April 20.-Today's session of the house was devoted chiefly to conmideration of the conference report upon the naval appropriation bill, presented yesterday by Chairman Boutelle. The report was rejected after three hours of debate and further conference will follow. The only ground upon which the fight against the report was made was found in the senate amendment to compensate naval officers for government use of their investions, and authorizing them to have their claims for such compensation ad-

judicated by the court of claims. Mr. Boutelie led the support of the amendment and Messra. Cannon and Sayers the opposition. A resolution, introduced by Mr. Cannon, insisting upon eliminating the amendment, was adopted-128 to 42-and the naval bill was again sent to

THE BILL BROUGHT UP. Mr. Boutelle (Rep.) of Maine called up

the conference report on the bill. The speaker announced that the house adjourned yesterday pending the disposition of a point of order made by Mr. Cannon (Rep.) of Illinois that the conferees had exceeded their jurnaliotion by introducing into the report matter which was not in difference between the two houses. The speaker recognized Mr. Cannon.

Mr. Cannon said his principle was based upon the provision inserted by the conferees, providing for admittenal officers, non-communicationed officers and 1,500 men in the marine corpu.

Mr. Boundle said be was unmious to secure the earliest possible action upon the to the utmost the forces the country and ment to war, to the end that the englest success to our arms might be accomplished. Accordingly inc. was not inclined to ansist upon reconnectives that might delay waiting upon the pleasure of congress. make any reasonable arrangement that would give the notice a fair opportunity to consider the amendment in question. After some discussion, Mr. Bouncile made report be rejorted, with the right to move Mr. Burthway of Onlo spoke against the are \$2.50 a piece. to recommen reserved, yearing which motion the hour should proceed to consider-

A Small Spot May be Cancer! "It was merely a mole at first, and for a long time was so insignificant that I gave it no thought whalever." These words of a recent correspondent contain an accurate description of the first

heal and disappear under ordinary treatment, may well be regarded with suspicion. Being a blood disease, it is folly to expect Cancer to be cured by a surgical operation. The knife never did and never will cure a blood disease, and every time it is re-

symptoms of the most violent and destructive cancers as they appear in nine cases out

of ten. A slight scab, a small sore, a lump in the breast-a mere spot, harmless as they

appear for a time, have developed into cancers of the most dangerous and obstinate form.

Cancer is becoming so prevalent that such symptoms as the above, which refuse to

sorted to, a life is threatened with sacrifice. The only known cure for this dreadful disease is S. S. S. (Swift's Specific), as is shown by the indisputable testimony of the many whom it has cured.

Mr. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., says that his wife paid no attention to a small lump which appeared in her breast, but it soon developed into a cancer of the worst type, and notwith-standing the treatment of the best physicians, it continued to spread and grow rapidly, eating two holes in her breast. The doctors soon pronounced her incurable. A celebrated New York specialist then treated her, but she continued to grow worse and when informed that both her aunt and grandmother had died from can-

cer, he gave the case up as hopeless.
Some one then recommended S. S. S., and though little hope remained, she begun it, and an improvement was noticed. The cancer commenced to heal, and when she had taken seven bottles it disappeared entirely, and although several years have clapsed not a sign of the disease has ever returned.

Mr. William Walpole, of Walshtown, South Dakota, writes: "About three years ago, there came under my left eye a little blotch about the size of a small pea. It grew rapidly, and shooting pains ran in every direction. I became alarmed and consulted a good doctor, who pronounced it cancer, and said that it must be out out. This I would not consent to, having little faith in the indiscriminate use of the knife. Reading of the many cures made by S. S. S., I determined to give that medicine a trial, and after I had taken it a few days, the cancer became irritated and began to discharge. This after awhile ceased, leaving a small scab, which finally dropped off, and only a healthy little scar remains to mark the place where the destroyer had held full sway.

For this dreadful disease is a real blood remedy-one purely vegetable, containing no potash, mercury, or other destructive mineral. S. S. S. is the only blood remedy which reaches obstinate, deepseated blood diseases, and hence it is the only cure for Cancer. The disease can only be reached through the blood, and all local treatment, such as caustic plasters or a surgical operation, only adds to its tortures. Being often hereditary, Cancer, in some cases does not appear until middle life, and it is of greatest importance Hope that its first symptoms be carefully watched and S. S. S. promptly taken. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no mineral or other drug; it is not a drug-

shop preparation, but is made from the roots and herbs of the forests. We will mail our book on Cancer and Blood diseases to any address. Swift Specific Company.

Swift's Specific.
